The ANA's Newest and Updated Publications

- ***Hearing Loss Rehabilitation for Acoustic Neuroma Patients (Revised/Updated May 2022)***
Hearing loss is the most common disability in acoustic neuroma patients and impacts one's quality of life. This booklet can help you understand options for pre-treatment hearing preservation as well as the many rehabilitation options available for both bilateral and unilateral hearing loss.
- ***Newly Diagnosed Handbook (Published Feb. 2022)***
This handbook is intended to help people who are newly diagnosed with acoustic neuromas navigate what is often an overwhelming amount of information related to the diagnosis and treatment of this benign brain tumor.
- ***Acoustic Neuroma: Understanding Emotional, Cognitive and Behavioral Changes (Published June 2021)***
This educational booklet helps you understand the emotional, cognitive, and behavioral changes associated with AN and provide you with information about what you may be experiencing and offer strategies to help you manage your symptoms and concerns.

Booklets are free to ANA members. You can view the electronic version in the [Member Section](#) of the ANA website or [contact us](#) to request the print version. If you are not an ANA member, [join today](#) or [order](#) booklets online for a small fee.

Employment Considerations Reference Guide

The ANA's employment reference guide was compiled from patients, volunteers, and caregivers. Each AN journey is unique, and employment situations can certainly be distinctive. We encourage you to use this resource as a starting point as you consider your situation, as well as questions, and options. This is not meant to be comprehensive, nor should it be considered legal advice. Please reach out to us with comments/suggestions at info@anausa.org.

Resources for Young Adults with Acoustic Neuroma

- **[Young Adult Facebook Group](#)**
This is a closed group moderated by ANA Staff and Volunteers. <https://www.facebook.com/groups/ANAYoungAdults>
- **[Young Adult Online Support Group](#)**
The group meets quarterly via Zoom and is moderated by ANA volunteers.
For more information, contact: Emily Truell, Peer Mentor, anayoungadults@gmail.com
- **[Peer Mentor Program](#)**
Peer Mentors are volunteers who are acoustic neuroma patients and caregivers that are willing to talk about their acoustic neuroma experience. They provide information, encouragement, and support to other acoustic neuroma patients via phone, email and video chat. Information about peer mentors is provided in our free patient kit or contact us to request a peer match today.

Support Groups

The ANA offers a variety of support groups so that you can find what is best for you and your situation, including:

- Geographic support groups across the U.S.
- Specialty support groups
- Co-sponsored support group with a medical partner

All Support Group meetings are free and open to anyone affected by acoustic neuroma; we look forward to welcoming you at a meeting soon. When you are ready, we are here. Visit the [ANA website](#) for more information and to find a group.

Team ANA - Fundraise for the ANA!

- Increase awareness of acoustic neuroma while raising funds for the ANA.
- Create your own fundraisers through Facebook, Walk4Hearing, or any individual fundraiser held locally.
- Contact Matthew Balte at matthewbalte@anausa.org if you are interested in raising funds for the ANA!

ANA Legacy Society

Philanthropic support is critically important to fulfilling the mission of the ANA. Our Legacy Society represents unique, exceptionally generous contributors who have included the ANA in their estate plans. This forward-looking philanthropy will have a remarkable impact on the future of the ANA. We are so very grateful for the commitments made by our Legacy Society members.

- To begin the conversation, please contact us at 770-205-8211 or email matthewbalte@anausa.org.
- You will also want to seek the advice of an attorney who specializes in estate planning.

In no case does ANA endorse any commercial product, physician, surgeon, medical procedure, medical institution, or its staff.
